

Cranberry Plus Chewable Tablets Cranberry Plus Granules

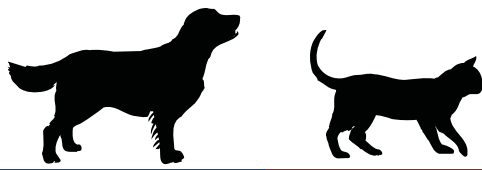

(Cranberry Extract, Echinacea, Oregon Grape Root & Sodium Ascorbate)

- ▶ **Natural dietary supplement formulated specifically for the maintenance and support of a healthy urinary tract in dogs and cats.** Includes the following key ingredients:
 - **Cranberry Extract:**
 - Works by minimizing the bacterial colonization of the bladder mucosa.
 - Sourced from the American Cranberry (*Vaccinium macrocarpon*).
 - Contains "proanthocyanidins" ("PAC's") that work to stop pathogenic bacteria from attaching to the inner lining of the bladder wall, thus allowing these bacteria to be flushed out in the urine.
 - **Echinacea:**
 - Helps to support the pet's bacterial resistance and boosts the animal's immune system.
 - **Oregon Grape Root:**
 - Contains the alkaloid berberine, known as an anti-bacterial and anti-inflammatory compound. Beneficial and effective anti-oxidant.
 - **Sodium Ascorbate: (Vitamin C)**
 - Beneficial in boosting the pet's immune system to improve resistance to infection.
- ▶ **Palatable dosage forms will simplify daily dosing.**
 - Flavored with a highly palatable, natural chicken liver flavor dogs and cats love to eat.
 - **Improved dosing compliance generates better clinical results and improved client satisfaction.**
 - Supported by Pala-Tech's 100% Palatability Acceptance guarantee.
- ▶ Each dosage form delivers the following amount of these key ingredients for maximum clinical benefit:
 - Cranberry Extract – 210 mg (*Delivers 2X more cranberry extract than competitive brands for greater potency.*)
 - Echinacea – 105 mg
 - Oregon Grape Root – 34 mg
 - Sodium Ascorbate – 34 mg
- ▶ Choice of dosage forms for use in dogs and cats:
 - **Palatable, chewable tablets**
 - Tablets are bilaterally scored for accurate dosing.
 - Ingredients are evenly distributed throughout the tablet.
 - **Palatable, flavored granules**
 - Ideal dosage form for use in cats.
- ▶ Recommended dosage schedule:
 - Tablets: Administer 1 tablet per 45 lbs. (20 kg) body weight daily.
 - Granules: Administer 2 scoops per 45 lbs. (20 kg) body weight daily.
For best results during UTI occurrence, administer the recommended dose every 12 hours. Does not interfere with the veterinarian's choice of antibiotics.
- ▶ **100% Palatability Acceptance.**
 - Pala-Tech guarantees pets will readily consume this product. If your client's dog or cat does not like the taste of this product, simply contact your authorized Pala-Tech Veterinary Distributor for replacement product.
- ▶ **Professionally packaged and labeled for veterinary use only.**
 - Chewable Tablets: 60 tablets/bottle.
 - Granules: 300 grams/container (400 full scoops). Includes precision dosing scoop.

Cranberry Plus Chewable Tablets Cranberry Plus Granules

(Cranberry Extract, Echinacea, Oregon Grape Root & Sodium Ascorbate)

- Choice of palatable dosage forms...chewable tablets or granules.
- Higher dosage levels of beneficial ingredients.
- Effective and affordable for long term use.

Pala-Tech™ Cranberry Plus Chewable Tablets is a natural dietary supplement for use in dogs and cats containing ingredients known to be beneficial for the animal's urinary tract and to help prevent infection of the urogenital system.

Recommended Use: The following dosage schedule is recommended for daily administration. Consult with your veterinarian to determine the proper dosage and schedule for each individual animal prescribed this product.

Weight of Pet	Daily Preventive Dosage
Up to 11 lbs.	¼ tablet/day
12 to 23 lbs.	½ tablet/day
24 to 45 lbs.	1 tablet/day
46 to 75 lbs.	1 ½ tablets/day
76 to 90 lbs.	2 tablets/day

The recommended dosage is 1 tablet/45 lbs. (20 kg) body weight daily. Tablets are bilaterally scored and can be easily broken for accurate dosing. For best results during an UTI occurrence, the daily dosage should be administered every 12 hours.

Administration: Pala-Tech™ Cranberry Plus Chewable Tablets are formulated with a proprietary, highly palatable chicken liver flavor to ensure all pets readily consume the tablet. Administer free choice orally to the pet as a treat, or crumble over the pet's food at mealtime. If crumbled over food, consumption should be monitored.
