

Canine ForSight™ Soft Chews Canine/Feline ForSight™ Petite Soft Chews

(Vision and Tear Stain Supplement)

FELINE

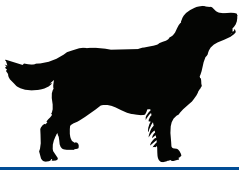

CANINE

- ▶ **Natural dietary supplement formulated to deliver the key ingredients (i.e. carotenoids) to protect and maintain vision and overall eye health.** In addition, includes ingredients to help manage or eliminate tear stains from the inside out.
- ▶ **Carotenoids are considered the foundation for excellent visual health** and are primarily found in the red, yellow or orange pigments of fruits, vegetables and flowers. They are a super source of antioxidants and other benefits. Included are the following carotenoids:
 - **Lutein & Zeaxanthin** – Both of these carotenoids are readily absorbed by pets and selectively accumulate in the lens and retina of the eye. Effective in preventing or slowing the progression of cataracts and retinal degeneration in animals. Included at the proper dosage levels for clinical effect.
 - **Bilberry Extract** – A very powerful carotenoid that is a relative of the American blueberry. Sourced from the fruit of *Vaccinium myrtillus*, this ingredient contains an abundance of anthocyanosides, which are chemical compounds with powerful antioxidant and anti-inflammatory properties. Possibly improves night vision.
 - **Lycopene** – A major carotenoid found primarily in tomatoes and watermelon. Has been shown to protect against cataract formation *in vitro* and *in vivo*. Demonstrated to be 100X stronger than Vitamin E as an antioxidant.
 - **Omega-3 Fatty Acids, Grape Seed Extract, Alpha Lipoic Acid**, etc. included to provide additional benefits for the eye, such as anti-inflammatory effect, antioxidant protection to minimize oxidative stress, prevention of eye diseases, etc.
- ▶ **Highly palatable soft chew dosage form simplifies daily dosing** for pet owners.
 - Flavored with an *artificial* roast beef and liver flavor to guarantee the pet will readily consume the product. Flavoring is actually a hydrolyzed soy protein, so safe to use with food allergic pets.
 - Administer as a daily “treat” to strengthen the human-animal bond.
 - Ensures complete consumption of the daily dose generating better clinical results.
- ▶ Recommended dosage schedule:
 - Petite Soft Chews – 1 chew/15 lbs. body weight daily.
 - Soft Chews – 1 chew/40 lbs. body weight daily.
- ▶ **CAUTION:** Due to the high levels of beneficial carotenoids, this product may cause a slight orange discoloration on fingers and light colored surfaces. This can be quickly and easily removed by washing with soap and water.
- ▶ **100% Palatability Acceptance Guarantee.**
 - Pala-Tech guarantees pets will readily consume this supplement. If your client’s dog or cat does not like the taste of this product, simply contact your authorized Pala-Tech Veterinary Distributor for replacement product.
- ▶ Professionally labeled and packaged in an **easy-to-open, user-friendly plastic container.** Provides enough product to see positive results in the first container.
 - Petite Soft Chews – 60 chews
 - Soft Chews – 75 chews

Canine ForSight™ Soft Chews Canine/Feline ForSight™ Petite Soft Chews (Vision and Tear Stain Supplement)

- Comprehensive eye/vision health supplement that also manages/eliminates tear stains.
- Soft chew dosage form simplifies daily administration... give the pet a daily "treat."
- Industry-first supplement delivering multiple benefits for your pet's eyes.

Pala-Tech™ ForSight™ Petite Soft Chews is a revolutionary ocular health supplement formulated to deliver key ingredients beneficial for overall eye health function and longevity, while also helping to eliminate unsightly tear stains from the inside out.

Recommended Use: Administer 1 soft chew per 15 lbs. or less of body weight daily.

Administration: Administer Petite Soft Chews free choice orally to the dog or cat as a treat or crumble over the pet's food at mealtime. If crumbled over food, consumption should be monitored. ForSight Petite Soft Chews is formulated with a proprietary, highly palatable roast beef and liver flavor to ensure pets will readily consume the supplement.
