

**Simplify dosing and
reward your pet with a
beneficial treat at the
same time!**

Tricky Treats™ with MOS MAX®

Improve dosing compliance and ensure complete dosage consumption to generate better clinical results using Tricky Treats to administer pills, tablets and capsules in dogs and cats. This brochure describes the benefits of Tricky Treats for hiding medications, but also explains the many benefits delivered by MOS MAX, a unique prebiotic to enhance the pet's immune system and aid in normalizing the entire gut's microflora. Tricky Treats with MOS MAX is the ideal product to recommend to your clients for use as a daily, rewarding and nutritionally beneficial treat. (50 brochures/cellophane wrapper)
